St. Vrain Valley School District Student Medical History and Screening

The medical history information is helpful to physicians screening athletes so they may participate in district athletic programs safely, and it expedites the screening process. *You and your* student are REQUIRED to complete the form *together* and it must be presented at screening. The form, and any further clearance items specified by the form, must be on file with the school administration before your student is allowed to participate in athletics. If any problems arise between the time of this sports exam and the beginning of your sport, bring them to the attention of your primary physician. This screening is not a substitute for a normal physical exam performed by your personal physician. Your signature releases the physicians and the district from any responsibility. Screening is valid for (1) calendar year unless otherwise indicated. Physicians performing these screenings are participating on a volunteer basis and are hereby relieved of any liability for outcomes related to athletic participation by the students.
