Tips to choosing your classes:

- Fill in all the boxes on the front page. All-year-long classes count as two classes, like English, Spanish or Explorations in STEM.
 - a. Enter A & B classes into separate boxes. If a class has an A class, you must sign up for the B class too.
- Honors classes typically move at a faster pace than the regular class.
- There is only one AP course for freshmen: AP Human Geography.
- Students will be placed into the requested core classes but you may not get all of your requested electives - this is why entering alternates is important! Your alternates are your **second** choices for electives. Counselors often use these to finalize schedules.
- Talk to your PARENTS and current TEACHERS to help you choose the appropriate classes for you.
- There are LIMITED schedule changes. Please choose your classes wisely.

Choosing **ELECTIVES** for your freshman:

- Freshman Seminar (both semesters), Core PE, and Health are required electives.
- World Language is considered an elective. We offer Spanish and French; each level is two semesters long (all year).
- We offer Spanish for Spanish Speakers for students who already speak Spanish at home.
- When reading the course descriptions:
 1. Be sure to look at the grades that the course is open to; you can only take classes that are designated for 9th graders.
 2. See if the course is one or two semesters - if it's two semesters (all year long, 1.0 credit), you'll enter the class in two boxes.
 3. Look if there is a prerequisite, for example - you must take Drama 1 before Drama 2.
 4. **If an application or audition is required - email the teacher for information.** Do not enter the class in a box; the teacher will let us know if you've been accepted into the class and a counselor will enter it on your requests & schedule.
