

iPad Refresh 2024

This fall, all SVVSD students will be exchanging their iPads for new ones. This exchange will take place in the first week of school through their English class (with a few exceptions). In order for this exchange to go smoothly, your student needs to do the following AT HOME BEFORE THEIR EXCHANGE DATE. We will not be able to wait for them to back up when it is their turn to exchange their iPad.

1. Know their Svvsd account password. If they do not remember their password, they [should use this site to reset it.](#)
2. Backup their iPad.

Does not need to be backed up - web based cloud storage	NEEDS to be backed up: Instructions Link
Google Drive, Docs, Sheets, Slides Schoolology Nearpod	Notability Photos Explain Everything Book Creator Keynote, Pages, Clips, iMovie

3. When your student finds out when their exchange date, they will need to bring their iPad in its case, the charging brick and the charging cord.
4. Their old iPad will be erased automatically; students do not need to worry about deleting anything.
